# HAIR DUSTBIN

STYLANCE®

STYLISH AT A GLANCE

## HAIR DUSTBIN

Equipped with a powerful 1200-Watt motor, infrared sensors will detect the debris and activate the vacuum, causing it to completely suck up the pile before shutting off automatically.

A simple control switch makes it possible to turn the unit on and off manually as well.

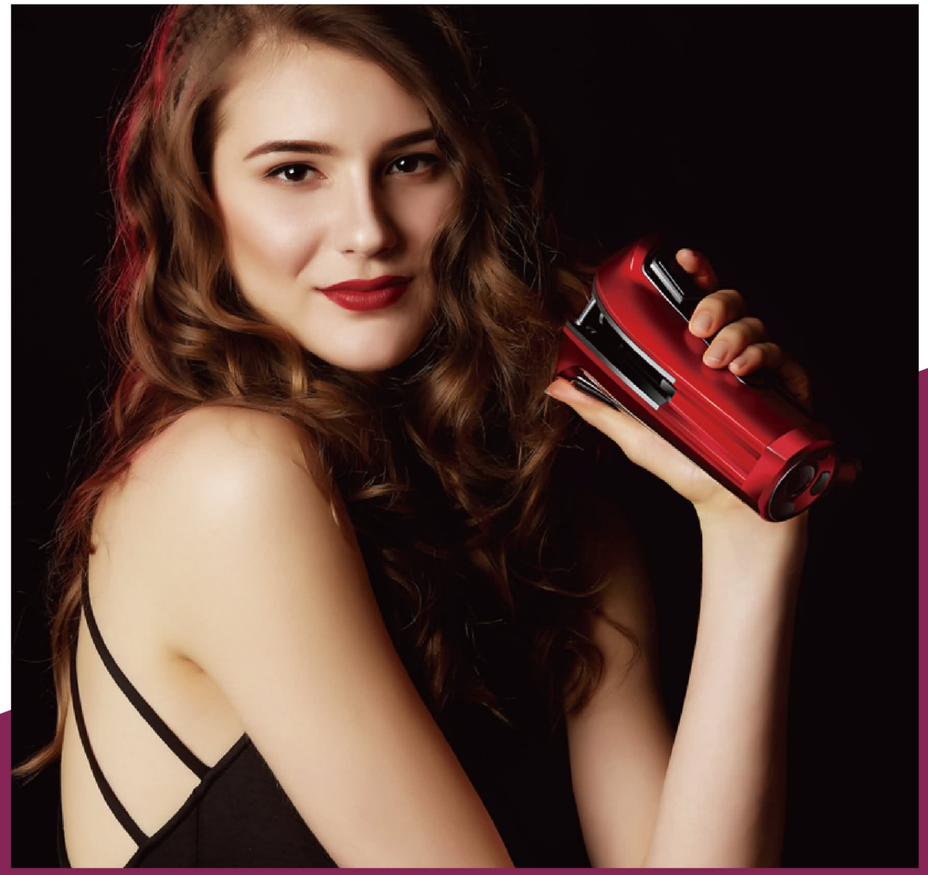

The device works well on bare-floor surfaces like tile, wood, vinyl, or concrete, and it makes a nice addition to any hair salon, barber shop, workshop, garage, or busy household kitchen.

- Powerful 1200W Motor
- Patented technology
- 3.6L Dustbin capacity
- Hepa filtration
- Micro exhaust filter
- Infrared sensors
- Automatic and
- manual operation
- Status indicator light
- Collection bin full
- indicator light

### Straight Hair Enters In, Curly Hair Comes Out.

Hair is automatically drawn into the titanium coated curling iron, gently wrapped, held and heated from all directions, so as to make perfect curl.

### 60% Higher Curl Definition,Curls Lasting for A Whole Day.

The original structure design makes the hair more uniformly and stably wrapped on the heating iron. As a result, curl definition will in crease 60%, and last a whole day.

### A New Way for Smart Curl.

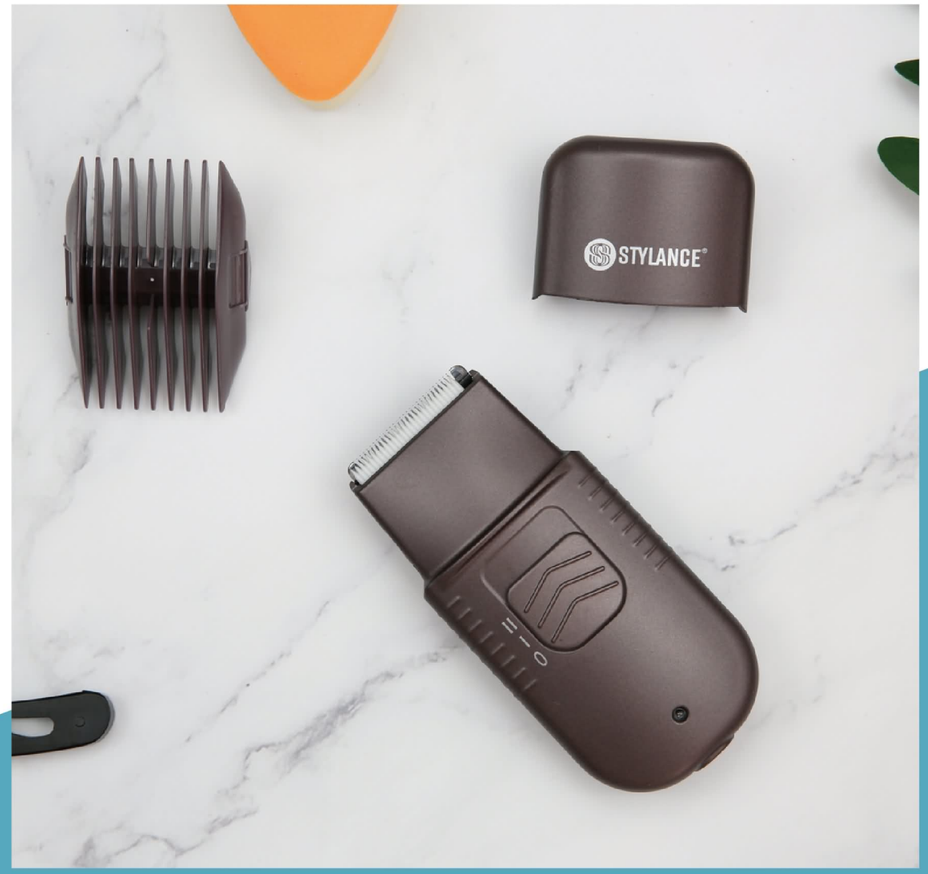

Built in smart sensor with precise control of brushless motor, it can identufy if there is too much hair volume to curl for one single time, messy hair or operating errors. If those situations happened, it will stop work immediately, send alarm sound and prevent hair from tangling.

### Unique Hidden-Design of Curling Iron, Double Care with "o" Burn.

# BRUSHLESS MOTOR
## HAIR DRYER

PROFESSIONAL

STYLANCE

STYLISH AT A GLANCE

**Lighter weight than normal AC hair dryer**
About 120g lighter than normal AC hair dryer.

**Durability**
According to our life test, the lifespan of the brushless hair dryer is at least 3,000 hours (stil keeping the test). Normal AC hair dryer can work about 500-800 hours, while the life time of DC motor is only around 200-300 hours.

**Air Speed**
Air speed of brushless hair dryer is 25 m/s, air speed of normal AC hair dryer is about 16m/s.

**Noise**
The noise level of brushless hair dryer is quieter than normal hair dryer.

2 different concentrators

## COMPACT HAIR DRYER

- Overheating Protection Technology engineered to dry hair safely.
- Unbreakable nylon body and reinforced motor mounts designed to withstand more drops and impacts.
- Ceramic Technology provides infrared heat to protece hair from heat damage.
- Patented Low radiative technology(0.01MT)to reduce hair loss problem.
- Patented thermal insulation using cool air flow keeps the dryer's body cool at all times suring use.
- 1500W with normal temperature
- True cold shot button.
- 1 heat/2 speed settings.
- 2 M line power cord.
- Powerful negative ion generator eliminates frizz for softer and shinier hair.
- Lightweight DC MOTOR allows you to work longer with less fatigue.
